Brownie Mix

You will need:

$\frac{2}{3}$ cup oil (or melted butter)
6 medium eggs (or 5-xtra large)

Prep:

Preheat oven to 350° Farenheit.
Grease sides and bottom of a 13" x 9"
sheet pan.

Directions:

Using a large bowl, combine entire contents of the mix with the butter or oil and mix on LOW SPEED or wire whisk until lumps disappear. Mix for 2 minutes, add the eggs and mix for an additional 2 minutes. Pour batter into pan and follow baking time below.

Baking Times:

Bake at 350° F for 20-25 minutes until the muffins peak.

Tip: It's better to err on the side of under-baking these than going over the time. You will get a more moist brownie this way.
